WAR MAY BE POSTPONED; MAIN QUESTION IMPENDS.

Immediate Break Between the United States and De Facto Government of Mexico now Seems to be Averted—Influence Used on Carranza to Adopt More Reasonable Course with this Country.

(BY A. P. NIGHT WIRE.)  
WASHINGTON, June 28.—An immediate break between the United States and the de facto government of Mexico has been averted by compliance with the American demand for release of the twenty-three troops captured in the fight at Carrizal.

Whether a state of war has been prevented or merely postponed, no one here could attempt to say tonight. Official information as to the attitude of Gen. Carranza was lacking. Until his response to Secretary Lansing's note dispatched Sunday, making two peremptory demands, is received, there will be no decision on whether President Wilson shall lay the crisis before Congress to address the Associated Advertising Clubs of the World in convention at Philadelphia tomorrow afternoon.

The last word from Special Agent Rodgers at Mexico City, a message received here tonight, is that Carranza, impressed with the urgency of the situation, had ordered the captured soldiers to be released for the border without waiting for his announcement of the action to reach Washington.

While Carranza generally conceded that this move lessens tension, no one conversant with the grave problem losing sight of the fact that the all-important question of Carranza's attitude toward the American expedition across the border to protect the territory and citizens of the United States from bandit outrages remains unsettled. If the two factions governing Mexico are to remain at peace, Carranza must be persuaded to release the troops.

Secretary Lansing has not studied today the trio of communications that were received from Carranza, Arredondo, Mexican Ambassador. The protest against the alleged actions of a large column of the United States from bandit outrages remains unsettled. If the two factions governing Mexico are to remain at peace, Carranza must be persuaded to release the troops.

If the two factions governing Mexico are to remain at peace, Carranza must be persuaded to release the troops.

FINIS BULETS IN FOUR BEING SENT TO MEXICO.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)  
EL PASO, June 28.—Weapons of war such as sawing machines and hen coops were held up at the border today, but two truckloads of flour for Carranza soldiers were allowed to pass into Mexico. The order was to stop everything but food.

On the ground that they were seeking for weapons the soldiers forced the shippers of flour to open all the sacks, delaying the shipment for several hours. In one of the sacks they found a cartridge or two.

AMERICAN MARINE SLAIN IN SANTO DOMINGO FIGHT.

(BY A. P. NIGHT WIRE.)  
WASHINGTON, June 28.—One American soldier was killed and another wounded in an engagement reported today by Rear-Admiral Caperton between the United States marines and Santo Domingo rebels, in which the latter were routed. The rebel losses were not given.

The name of the marine killed was given as Private John Acrimont of the Twenty-seventh Infantry. His name does not appear in Navy Department records. Albert Veldkamp of Aberdeen, Wash., a private of the Twenty-seventh, was wounded.

MEXICAN SOLDIERS SEIZE BULLION AT NOGALES.

(BY A. P. NIGHT WIRE.)  
NOGALES (Ariz.) June 28.—Mexican soldiers today looted numerous business concerns and homes in Nogales, Sonora, among other things a shipment of silver bullion valued at \$25,000 being taken from the office of Wells Fargo & Co. A local firm of bullion buyers made a demand upon the commandant for the Twenty-seventh Infantry. He refused to hand over the bullion, claiming it was the property of the United States government.

## RALLY TO SUPPORT OF HOME GUARD MOVEMENT.

Chamber of Commerce Plan Receives Approval of Governor and Adjutant-General—Disquieting Rumors of Junta Activities Lead City and Police Officials to Approve Scheme for Lodgers' Organization.

Miss Chloris Chester,

A Red Cross nurse, who yesterday filled out her enlistment papers as the first medical attaché of the Chamber of Commerce's volunteer battalion.

APPROVAL of the Chamber of Commerce's plan to organize a home guard regiment was received yesterday in telegrams from the Governor and Adj. Gen. Thomas. The message from the Governor stated that further word regarding a concrete plan to put in practice throughout the State may be expected in a few days, when the big task of mobilizing and sending troops south for active service shall have been completed.

With this encouragement, the chamber is proceeding rapidly with enlistments, and indications are that a full regiment will be available. The plan is not to enlist men for volunteer duty, but to have a permanent defense organization here at all times, regardless of how many are called into service at the front.

Many large employers of the city have caught the spirit of protection for the city and are organizing their employees into home guard companies to take their places in the regiment. The matter of equipment is in abeyance, pending consideration of the State authorities, but enthusiasm is running riot.

The first volunteer for Red Cross work came yesterday, when Miss Chloris Chester, who is a trained nurse, came in person to the chamber and announced that she might be called upon if the services of women were needed. She said that other professional nurses of her acquaintance were also prepared to assist in any way they could if the need arose.

Today the offices will be open for all who wish to join the home guard. Already there are enough men skilled in military matters to act as drill masters. A surprising percentage of those offering have seen actual service with the flag, either in the Spanish-American War, militia or in training schools. Indications are that there will be an entire company of men familiar with the use of arms.

CLUB OFFERS SERVICES. The Revolver and Rifle Club is among the latest to offer its services. Similar organizations will be welcomed as separate units and will especially the social features that will be a part of the home guard routine. These also will have their own company officers, a feature that appeals to men who have been associated in an organization of their own.

The exposure of Los Angeles to possible trouble, in case of the declaration of war with Mexico, has also aroused city officials to thoughtful preparation for the organization of a home guard body to include the various units now available.

Disquieting rumors have been reaching the police, the Mayor and other city and State officials for several days regarding possible acts that might be committed by patriotic Mexicans here, should war be declared. It is said that a Junta has been formed in Pasadena.

Among those eager to assist in the organization of such a company of local militia is Brig. Gen. J. O. Royer, of the Uniform Rank of the Knights of Pythias. He has volunteered his services and support if the organization shall be civic in its nature, and not representing any one man or clique of men. The present times, he believes, are too fraught with possibilities to leave such an urgent matter to the conduct of any man or group of men who have not the complete confidence and backing of the citizens as a whole.

POINTS OUT NEED. In a letter which he wrote yesterday Gen. Royer said: "The other men know what war means: the fanciful bitterness it engenders and the dangers to be apprehended from the large Mexican population of this city and the immediate neighborhood, of whom I am told, there are about 25,000.

such organizations I might mention the Uniform Rank, Knights of Pythias, Fraternal Brotherhood, Woodmen, Knights of Columbus and Elks, all of whom are comprised of well-drilled men who only need proper equipment to constitute an efficient fighting force. If the officers of these respective organizations would get together and discuss the situation they could formulate a plan of protection and put it into immediate effect, and their efforts would find ready response, not by the members of the organizations, but on the part of thousands of vigorous young men not affiliated. Should this be done, it will not be men that is lacking, but arms and equipment, but I have no doubt that when the urgency of the cause shall have been presented to the Federal and State governments there will be little delay in procuring such arms and other equipment as may be necessary.

URGES ACTION AT ONCE. "This matter should not be allowed to drift. It should be pushed along at once. The danger sought to be guarded against is not something waiting us in the future, but with us now, and a grievous awakening will be ours if in this matter we adopt the manna policy of our esteemed southern neighbors. Under the most favorable circumstances, it takes time to make arrangements for financing the organization, procuring the equipment, recruiting men and perfecting a multitude of details for the proper handling of the thousands of men who should compose this proposed 'home guard'.

And in the meantime, this magnificent city is left practically defenseless against the depredations of any considerable body of rioters and looters. Some such body of defenders, as I have mentioned, will have to come into existence before our troubles with Mexico are settled, and why not do it now before a reign of arson and pillage may set in?"

Gen. Royer pledges his personal assistance and financial aid to any movement which will effect the ends he graphically points out. The theme of the letter met with the indorsement of the entire corps of city officials yesterday.

### Why Suffer From Migraine or Sick Headache?

Dr. J. J. Caldwell says that this exceedingly distressing disease does not shorten life, but does not appear to be curable. Sufferers from this affliction are condemned to undergo the periodical attacks every few weeks until they are forty years of age, after which the attacks are less frequent, and finally disappear entirely. Palliative measures during the attack are all that is possible to suggest, while care in the diet is the best preventive measure. An attack may often be prevented by taking two anti-hemetic tablets when the first symptoms appear, and one anti-hemetic tablet every two hours during the attack. It eases the pain and brings rest and quiet. Anti-hemetic tablets are sold by all druggists. Ask for A-K Tablets. They quickly relieve all pain.

### It Cures Through the Pores KNOW-DOC

acts like magic in the relief of pain, chronic skin diseases, and slow-healing sores. At druggists—three sizes—25c, 50c and \$1.00.

### ASK FOR GET HORLICK'S

THE ORIGINAL MALTED MILK. Cheap substitutes cost YOU same price.

### ENLIST ON PAY.

American Tobacco Company Encourages Employees to Join Army. Smoking, once widely fought as a nuisance, has since the international rumple resulted in ordering out the militia, become more or less of a patriotic pastime. With the announcement of the American Tobacco Company that employees of that company who respond to the call to the colors will not only find their positions awaiting them upon their return, but will receive full pay during their absence, a brand new excuse has been found by smokers who are hard put to it to find reason for indulging their taste for "the weed."

### DEFINE ALIEN STATUS.

If They go to War Citizenship Way Will be Made Easy.

Numerous inquiries have been received at the office of the clerk of the United States District Court by aliens who are members of the California National Guard, but who have either filed their declaration of intention to become citizens or are contemplating doing so. Under the naturalization law, an applicant is not allowed to leave the country, pending the disposition of his application, and they feared that if they were sent to Mexico they might lose their status.

What is known as the soldier clause of the naturalization law applies in such cases, say officials. It provides that if an applicant has filed his declaration of intention, or has not done so, and after his return to the country files such application, response, not by the members of the organization, but on the part of thousands of vigorous young men not affiliated. Should this be done, it will not be men that is lacking, but arms and equipment, but I have no doubt that when the urgency of the cause shall have been presented to the Federal and State governments there will be little delay in procuring such arms and other equipment as may be necessary.

### CITY BENEFITS WITH FAMILY.

O. T. Johnson Will be Filed in Probate Court.

Philanthropist's Concern is Largely for Charity.

Leaves Housing Apartments for Old and Needy.

Devoting the bulk of his will to the great philanthropy he founded for the betterment of needy mothers and widows, Orson T. Johnson, multimillionaire, leaves the residue of his estate to his wife, Anna C. Johnson; his son, Frederick O. Johnson; his daughter, Katharine J. Flint; his grandchildren, Anita Johnson Loos and Charles Taylor Johnson of San Diego. In the manner and proportion as provided for under the law of succession.

In his petition for the probate of the will, filed yesterday through Attorneys Gray, Barker and Bowen, the executor, Frederick O. Johnson, Fred W. Flint, Jr., and Donald Barker, state they are unable to give a statement in detail of Mr. Johnson's property. The estate consists, however, of cash, stocks, bonds and real and personal property. The will was executed October 8, 1915. It states that the family residence with the furniture and furnishings were conveyed to Mrs.

Johnson before Mr. Johnson's death, and it was his intention that she should have full title.

It is also directed that the deed to the six lots upon which the Anna Craven Johnson Housing apartments were constructed and recently opened, held in escrow for the city of Los Angeles, shall take effect at once. The will also directs that the tablets with inscriptions expressing the purposes and conditions of the Housing apartments shall not be removed.

The conditions upon which the apartments shall be occupied are set out in full. No person shall occupy them except those subject to the conditions and restrictions, and such persons shall have been born in the United States of American and Caucasian races. They shall be of good moral character and of industrious habits, not addicted to the use of intoxicating liquors or drugs. The occupation of the apartments is restricted to widows dependent on daily labor for their support and having two or more young children living with them; mothers having dependent husbands and at least one child; mothers deserted by their husbands and having children, and mothers dependent on their labor and with at least one child and having an aged parent or parents dependent on them.

It is provided that the Housing apartments shall be under the Housing Commission of the city; that mothers shall teach their children habits of industry, thrift and economy, and require them to assist in the household work. Rentals will be used for the upkeep of the premises, which are between Sixth street and Crown Hill, Collins and Bolas streets. The rentals will also be used to defray the salary of the superintendent and an attendant for the nursery.

Keep Your Bowels Regular. If your bowels become constipated, take a dose of Chamberlain's Tablets just after supper and they will correct the disorder. They are mild and gentle in their action.—Advertisement.

### VETERAN WOULD ENLIST.

Served with Lee in Sixties, and Now Wants to Defend Flag.

A veteran of the Civil War—on the other side—now 77 years of age, entered with martial tread the recruiting office in room 415, Union Oil Building, yesterday, and offered to enlist in the First Los Angeles Regiment of Volunteers. He had served with Lee in the stormy days of the sixties; now he wishes to serve the reunited country.

"This place looks like the lobby of a southern hotel at the outbreak of the Civil War," he said, addressing bystanders, glancing with pride into the faces of young men of all walks of life who were there on the mission that had brought him. The work of recruiting a volunteer regiment to be ready to answer the first call for troops after the National Guard is progressing rapidly. The ranks are filling up with keen-eyed adventurers, professional men, ministers, laboring men, business men—all ranks are represented. Some are veterans of the Spanish War and some of the Philippines insurrection; some have served in the armies of Europe, and still others have received training in the militia and military schools, and many are entirely new to soldiering.

Drills are held evenings, and every effort is made to have the regiment not only recruited, but ready for service when the call comes.

### TAKE PATRIOTIC STAND.

Members of the Los Angeles Athletic Club called into the military service of the United States in the event of war with Mexico will pay no dues during their term of service, according to an announcement made yesterday by the club's board of directors. This action is in line with other public-spirited organizations throughout the country, who are desirous of lessening the financial burdens of employees serving the nation.

Established 1889. Assets Over \$4,000,000.

## A Loan in Time

Perhaps right now you could profitably use a little extra money. Do not forego a possible saving or profit for lack of available funds.

We loan money on most convenient terms. Money borrowed from us is repaid in monthly amounts of whatever size is best suited to your circumstances.

By this plan the loan is paid off without any appreciable drain on your finances. It saves interest and makes your loan exceptionally inexpensive.

Loans are made for building or any other legitimate purpose in amounts not exceeding \$5000.

Our loan folder explains fully—call or write for it.

**The Democrats in Ohio are suffering on the quiet to quiet the Pomeroyers. Little Altes has the mistake of trying to keep the offices in the Buckeye State on making any enemies. It is "did."**

**We are on the eve of a catastrophe. It is a matter of the price of soda water and soda is to be doubled. The only thing given is "on account of the which, as in many other cases, seemed sufficient.**

**Judge Hughes had nothing to do with the Chicago convention platform or its nomination. The delegates had nothing to do with the St. Louis convention. In form or its nomination. In the latter case it was only a matter of obeying orders.**

**A little more preparation needed at Sacramento. It is a matter of the price of soda water and soda is to be doubled. The only thing given is "on account of the which, as in many other cases, seemed sufficient.**

**Why is it that we lost over 900,000 in revenue during the last ten months of the Democratic law, over \$3,000,000 per month before the war began? Democrats kindly explain. Not on account of the leadership of the Underwood tariff law.**

**THE LURE OF LOS ANGELES**

Something intangible, sweet, like to a maiden flitting and holding you a captive—a slave—of Los Angeles. What is the lure?

Something well known but new in books. That lurks in arroyos and in skyscrapers glowing at the stars, in clamoring crowds, in clamorous cars.

Perhaps it's the ozone from the beach; or skylines of granite towers seen from old plazas and parks.

Again it may be in the flowers borne on the breeze from sand rose hedges.

That bloom the year round, the palms ever green.

And tall eucalyptus and acacias, it's possibly autos and airplanes.

In tented highways and indeed—

It may—why enumerate? Add to the product—your feet stay.

Your heart will be seeking recall.

And this is the answer—L. A.

## AMPAT'S START OFF SERIES BY CAPTURING EXCITING GAME FROM BEES.

**Between Heavyweights Threatens to be the Big Thing of its Kind Since the Willard-Moran Advantages of Both Height and Weight Rest on Moran.**

**Heavyweights.**

**MORAN SLIGHT FAVORITE OVER STUBBY J. DILLON.**

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

NEW YORK BUREAU OF THE TIMES, June 28.—In the Long Island part of Greater New York, the boxing world is trying to make out the Moran-Dillon scrap, to be fought tomorrow night in the City of the Big Apple, a trolley dodger, a notable attraction.

As the fight will be held at Madison Square Garden, the promoters are counting on a capacity crowd. Very thousands of dollars will be made over to the scrappers—\$10,000 to Moran and \$15,000 to Dillon.

Both men are making all kinds of claims as to the probable outcome of the encounter, as are the fans. Some of the more expert of experts profess to see why a "good little" such as Jack Dillon, has any chance to win from a "big fellow," such as Frank Moran.

Not much wagering has been done to date. The odds have offered 1 to 3 that the underdog will knock out Dillon. There isn't a superfluity of them. Odds of 5 to 1 that Moran will knock out Moran are being made.

**OUNDS GOOD.**

Both men are up to pre-scrapping. The fight will resemble a demolition, with no time out for intermission. Dillon is known in his native state as the "whirlwind" who made a big hit in his first fight with a native of this state when he knocked down Champion Jess Williams.

He is not as speedy as work as Dillon, but he is a powerful man. Dillon, let it be said, is a powerful man. Dillon, let it be said, is a powerful man. Dillon, let it be said, is a powerful man.

**STATISTICS.**

He was born at Frankfort, Kentucky, in 1889, and Moran was born at St. Patrick's, the day after St. Patrick's day, 1887. Dillon weighs 165 pounds, while Moran weighs 175. Both are right-handed fighters. Moran has a prospective antagonist, much about six inches shorter than the Houdini marvel, and is five and one-half inches shorter than the Houdini marvel.

Net stars of two nations. Kumagai (with the racket), Ward Dawson, Maurice McLoughlin and Mikami, Japanese and American tennis stars, looking over the new McLoughlin racket in the McLoughlin-Bundy store. The Japanese tennis players were in the city only two hours yesterday and passed on through to St. Louis where they will compete in the Missouri Valley championships.

**Oh, Joy!**

**WILLIS E. DAVIS KNOCKS KNOX OUT.**

**LOCAL DOUBLES SHARKS RUN UP AGAINST TROUBLE.**

Miss Bjurstedt and George Church Defeat Miss Verity and Curt Muller with Very Little Difficulty—Davis and John Manago to Survive Another Round.

[BY A. P. NIGHT WIRE.]

CLEVELAND (O.) June 28.—The entries in the championship singles national clay-court tennis tournament being held on the courts of the Lakewood Tennis Club were narrowed down to four players today, when Willis E. Davis, the San Francisco boy, who is a student at the University of Pennsylvania, defeated Walter B. Knox, of the Princeton University varsity team, 6-3, 8-6, in the fifth round.

The semi-final round was reached in the men's doubles today. In the most important match Doyle and Knox, an eastern team, eliminated McCormick and Warren, the California pair. Hendericks and Spalding (Buffalo), and Davis and John Manago (California), also were doubles winners.

Unless several miracles are performed, Willis E. Davis will meet Connie B. Doyle of the Columbia College Club, Washington, D. C., in the final round of the national clay-court championship tennis tournament.

The winner of the final match will meet R. Norris Williams, national clay-court champion, in a challenge match.

Willis E. Davis (California), beat Walter B. Knox (Princeton), 6-3, 8-6.

Mixed doubles, first round—Miss Bjurstedt and George M. Church beat Miss Verity and Curt Muller, 6-1, 6-0.

Men's doubles, fourth round—Doyle and Knox (East), beat McCormick and Warren (California), 6-1, 4-6, 6-1; Davis and John Manago (California), beat Cabell and Keith (Cleveland), 6-2, 6-4.

**JAPANESE NET EXPERTS HERE FOR BUT TWO HOURS.**

Just to show how good he is it is only necessary to tell of his singles match with Roland Roberts last week at Del Monte. Without any practice on the cement courts, and with Roberts playing at the very top of his game, Kumagai was defeated, 9-7, 9-7. "Nuff ced."

Kumagai plays a game which is said to closely resemble that of Johnny Strachan, the San Francisco wonder. He hits the ball so that it travels like a rifle shot, and he relies on hard hitting and speed in covering court to get him out of difficulties.

Mikami, while not comparing with Kumagai as a singles player, is a steady and very reliable partner in the doubles, and will undoubtedly return to Japan with lots of laurels before the trip is over.

The two Japanese expressed great regret at their inability to remain in the city for the big Long Beach tournament, but hope to play here on their way home after playing this summer in the East.

**NATIONAL CHAMPIONS TO BE CHOSEN THIS EVENING.**

BY WARDE FOWLER.

IF DIVING around in the surf at Ocean Park counts for anything, Miss Constance Meyer is a wonder. The champion woman diver, who is to defend her title in the Los Angeles Athletic Club tonight, splashed through waves high enough to knock a house down, and did it with apparent unconcern and indifference.

On account of the high tides during the last few days, the breakers at the beach have been exceptionally high. Yesterday they were rolling in with force and gusto, and were knocking many unsuspecting bathers all over the shore. Miss Meyer waded out through a few of these monsters, diving laughingly under the biggest, and enjoyed a quiet swim out beyond the reach of the smashing waves.

**A VACATION.**

Miss Allen and Miss Meyer journeyed to the beach yesterday with the idea of taking a vacation rather than practicing up for their championship affair tonight. They loitered around on the shore for an hour or so, and will probably be in a superb condition today. Then

**AVIATORS NEEDED AT FRONT SO AERO RACE IS SHELVED.**

[BY A. P. NIGHT WIRE.]

NEW YORK, June 28.—Preparations for the transcontinental aeroplane race which was to have taken place in September, starting from the Atlantic Coast, have been discontinued because of the Mexican situation, it was announced today by the Aero Club of America after a conference attended by representatives of the club, the War Department, manufacturers of aeroplanes and a representative of Ralph Pulitzer, donor of the trophy. It was stated that the race is called off "only for so long as the international possibilities may require."

**POWER TEAM IS AFTER VILLE BUNCH.**

The Ville de Paris ball nine tackle the fast Pacific Light and Power Company team on the Fifty-ninth and Towne diamond next Sunday. The Ville team has been completely reorganized and has started on a winning streak again. Oestrich, the little heaver for the "merchants," will be on the mound against the power men.

**ROBERTSON BEATS CHAMP CHAMBERLAIN.**

In an exciting round of billiards at Nelm's parlors yesterday evening, Robertson beat Chamberlain into camp, 42 to 28. The struggle ran out into 115 innings and both players managed to stack up high runs of three. Randall and McMann will tackle each other tonight. The first place position is in a tied condition and several matches may be necessary to settle the real winner.

## "CHARLEY HORSE" PLAYS MOST IMPORTANT ROLE.

**Large Quantities of this Disease Enter into the Ball Game and Gum up the Entire Situation—Jimmy Shinn Contracts a Nifty Attack in Early Inning and is Completely Overcome by the Ninth.**

**BY HARRY A. WILLIAMS.**

**"CHARLEY HORSE"** in all its varied forms was much in evidence yesterday and played an important and protruding part in the overdupe opener between Vernon and Salt Lake. Seldom has so much "Charley horse" been seen in one inclosure, and one would be justified in referring to the Washington-street grounds as a corral rather than a park.

**THE REAL TRUTH.**

Technically, E. Johnson, the well-known epithal pitcher, won his own game, 2 to 1, in the ninth. In reality the great conflict was decided by a modest attack of "Charley horse," said to have been contracted by Jimmy Shinn as early as the first inning. By the ninth the symptoms became so acute that Jimmy could not catch a fly ball by Johnson, which ordinarily he would have stuck in his hindmost pocket. This fly blossomed into a two-bagger, and Tub Spencer, already on second, easily scored the winning run.

Some quaint games have been played here this year, but none quaintier than this.

**TWO-RUN LEAD.**

By the fifth Vernon had annexed a two-run lead off Bill Piercy. In the eighth Salt Lake scored its first run, when Bobby Quinlan, who got by the quarantine officers and brought a pronounced case of "Charley horse" into town with him, managed to reach third on a home run to left. Later he scored on a fielder's choice solely because Tub spilled a throw to the plate.

Then in the ninth Salt Lake tied the score with two out, when Trunk Hannah delivered a two-base blow to right, and Vann bounced one off Bates that was entirely too warm to handle. Orr counted on the drive, and Hannah would have done so also had not Fittery held him at third. Left-handed pitchers are regarded as erratic, and Fittery, it seems, is no exception. With Hannah on third, Vann on second and two strikes on Hall, Brashar called one that was low and outside. Kitty seldom fails in a crisis. This snuffed out the last chance of the struggling Salt Lakers.

Hunky Hall, who had edged into the picture in the eighth, when Piercy was relieved by a pinch hitter, opened the ninth with a walk to Spencer. Rader stood around at the plate for a spell, during which what appeared to be an excellent strike was called a ball. He then sacrificed Spencer to second. Johnson picked out one to his liking and drove a fly to right center. Trunk, he was afflicted with "Charley horse," contracted in the first inning, but he was not concerned. It should be stated that many opined a gent with a crutch in one hand and a cane in the other might have

**ANGELS WIN IN TENTH INNING.**

**RYAN AND CHANCE'S MEN SHOW BIG BUNCH OF CLASS.**

**Content Anybody's Battle Until Tenth Inning, When Explosion of Tremendous Proportions Takes Place and Scraps Find Themselves Four Runs to Good.**

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

PORTLAND (Or.) June 28.—It was anybody's game till the tenth and then, oh—four runs and victory for Ryan and Chance's men in the first of the series here. It was a cold day for baseball, but it was a great game. In fact, both teams played winning ball to keep warm.

To let the loyal Los Angeles fans know how the game was won, here's the truth, though McCrede might hate to have the truth told. Ryan, first man up in the tenth, walked; and Maggett, one of the best lead-off men in the league, opened on Noyes, who had twirled a wonderful game, for a two-bagger to left, Ryan taking third.

**HOW IT HAPPENED.**

Spears replaced Nixon in right field, Stump went to first and Ward to short for Portland. Ellis singled to center, Ryan scoring and Maggett taking third. Wolter singled to left, scoring Maggett. Koerner doubled to Fisher. Galloway doubled to center, scoring Ellis. McLarry hit to Noyes and Wolter was caught between third and the plate. Noyes to Fisher to Vaughn, Galloway taking third and McLarry second. Galloway scored and McLarry took third on a wild pitch. Basler flied to Willie. Four runs, four hits were run up. Now this is the way Portland didn't win the game, nor even tie the score.

**POOR FIELD.**

Southworth went out, Ryan to Koerner. Rodgers went out, Butler to Koerner, and Ward fanned, that's enough.

Although the field was in a sloppy condition and only a few fans were on hand, both teams were out to win. The start was delayed fifteen minutes to give the ground keeper time to dry off the infield. The players did not take infield and batting practice as usual. The score:

# Record Entry List for Men's Doubles Championship at Virginia.

## THIRTY TEAMS IN TOURNAMENT

McLaughlin will be the Center of Interest.

MacSwain's Team Comes from Sacramento.

Women Players Compete in Round Robin.

BY WILLIAM M. HENRY.

With the illustrious arm of Weller and Weller bursting into the calcium with an eleven-hour entry, the list of teams for the Pacific States tennis doubles championships was closed up last night.

THIRTY TEAMS. All told, there will be thirty teams seen in action on the Virginia courts at Long Beach during the next week and these teams may be said to range from Johnston and Griffin, national champions, all the way down the line, to pairs most of us never heard of.

Aside from the champions, who will play only exhibition sets, the major portion of the interest centers in the McLaughlin-Dawson team, generally regarded as the pick of all the southern entries, and most probable winners of the tournament.

MAURY THERE. According to one of the best informed tennis players in the city, Maury is in the best form of his career. "Right now, Maury is playing better tennis than he did at any time last year," said the expert, and it must be remembered that Maury was almost good enough to win the national championship in 1915.

Another team, in which there will be an unusual amount of interest, will be the composed of the MacSwain brothers of Sacramento. These players have been entered by the Central Counties Tennis Association, and are named as the pick of the players in their section. They are due to arrive today.

THE OTHERS. Roberts and Dietrich of San Francisco will be the only other invading team and, while regarded as strong, the Roberts-Dietrich aggregation is hardly believed capable of defeating any one of the strong local aggregations.

GOOD MEN. Bill Horrell, who has won the southwestern championship in Arizona so many times that he can't remember it, is paired off with Herbert Hahn, the elegant captain of the Stanford University tennis squad, and last year's holder of the title of Pacific Coast singles champion.

Each team as Bundy and Herd, Brown and Wayne, Bredon and Fries, Sinebaugh and Barber, and many others, need no eulogy. They are composed of veterans and will provide lots of the best tennis of the tournament.

THE LADIES. Twelve women players have been invited to take part in the round robin tournament, women's doubles, which will start on Monday. They are the pick of Southern California's women tennis stars and they will also take part in mixed doubles exhibitions during the tourney.

The first two days of the tournament will be filled largely with preliminary rounds of the big men's doubles championships, as it is intended to get things started on the semi-final round by Monday, and there will be no scheduled matches on Tuesday.

LONG BOUTS. The matches will all be three out of five sets and the ultimate winners will be sent back East, where they will dispute with representative teams of other sections of the country the national championships, Griffin and Johnston, for their title.

At a late hour last night the teams which had been entered were as follows: McLaughlin and Dawson, Bundy and Herd, Brown and Wayne, Bredon and Fries, Sinebaugh and Barber, Barker and Barker, Roberts and Dietrich, Hahn and Horrell, MacSwain and MacSwain, Stannard and Stannard, Dugan and Dugan, and Dunbar and Dunbar.

MacSwain, Allen and Hall, Horrell and Hahn, Goodwin and Belden, Osborn and partner, Greenberg and partner, Simmons and partner and Weller and Weller.

NEGROES MAY FIGHT WHITE. (SPECIAL WIRE—EXCLUSIVE DISPATCH.) ALBANY, N. Y., June 28.—The salient fight made by the negro cavaliers in the recent fight in Mexico is largely responsible for the action of the State Athletic Commission in removing the ban on mixed bouts between white and negro pugilists here today.

There should be no discrimination against the negroes," said one of the commissioners, "and if there has been, the fight made by those negro cavaliers should remove it."

It was also pointed out that Col. William Hayward of the New York Public Service Commission is endeavoring to recruit a negro regiment for service in Mexico, and that the continuance of the ban would hamper his efforts.

## SECOND DIVISION PITCHERS SHINE.

FITTERY OF SALT LAKE LEADS IN STRIKEOUTS.

Noyes, Sothorn and Frough are runners up and are credited with sixty-eight strikeouts.

Apiece—Ryan Shows Class in Hitting Batsmen with Ball.

High totals in the strikeout columns and low totals in the base-on-balls columns for the pitchers do not necessarily go with the first and second division of the clubs in games won and lost. At least they do not in the Coast League this year.

For up to this week of the eight leading strikeout pitchers, six were members of second-division clubs; and some of the most successful pitchers in game won and lost were among the most liberal in the issue of free passes.

Fittery of Salt Lake leads in strikeouts with 84; Noyes and Sothorn of Portland and Frough of Oakland, each with 82, are nearest rivals; Hughes of Salt Lake, 80; Brown, San Francisco, 77; Quinn, Vernon, 75; Hall, Salt Lake, 73, are the only other pitchers who have piled up more than 50 strikeouts in the first twelve weeks of the season.

Sothorn of Portland has walked 63 men, more than any other pitcher, but Fittery of Salt Lake is close on his heels with 52 bases on balls. Couch of San Francisco has passed 58 batsmen; Klawitter, Salt Lake, and Oakland, 57; Horstman, Los Angeles, 56; Hughes, Salt Lake, 55.

Ryan of Los Angeles has hit 11 batsmen; Fittery of Salt Lake, 10, and Quinn of Vernon, 8. Bear, Boyd and Brown of Oakland are tied for honors in most wild pitches, each having cut loss 6. One balk each has been called on Crandall, Oakland; Hess, Vernon; Hogg and Horstman, Los Angeles; Oldham, San Francisco, and Quinlan, Salt Lake.

Following records show strikeouts, bases on balls, hit batsmen, wild pitches and balks on the record of each pitcher up to June 26:

Pitcher	Strikes	B.B.	H.B.	W.P.	B.
Fittery, Salt Lake	84	52	11	1	0
Noyes, Portland	82	52	10	1	0
Sothorn, Portland	82	52	10	1	0
Frough, Oakland	82	52	10	1	0
Hughes, Salt Lake	80	55	10	1	0
Brown, San Francisco	77	56	10	1	0
Quinn, Vernon	75	58	8	1	0
Hall, Salt Lake	73	57	10	1	0
Couch, San Francisco	58	57	11	1	0
Klawitter, Salt Lake	57	57	10	1	0
Oakland	57	57	10	1	0
Horstman, Los Angeles	56	57	10	1	0
Hess, Vernon	55	57	10	1	0
Hogg, Los Angeles	55	57	10	1	0
Oldham, San Francisco	55	57	10	1	0
Quinlan, Salt Lake	55	57	10	1	0

Mr. McStay reports the roadway on his recent trip extremely favorable with very few exceptions. Through several stretches of the Tioga and Lincoln Highway the party ran into unexpected opposition.

GOOD PERFORMANCE. Sixteen days were consumed from start to finish and the club official warmly praises the performance of the five-passenger Hupmobile that was subjected to all kinds of fearful motor tests. This 1916 Hupmobile which is the second to be added to the fleet of official auto club cars has already done more than 6000 miles in less than three months service.

Somewhat in the nature of a vacation the principal feature of the Yosemite trip was for the purpose of sending a club representative over every inch of roadway between here and the Yosemite. The information desk at the club reports a tremendous increase in inquiries from Southern California motorists regarding the route to Yosemite and Lake Tahoe.

Anticipating record breaking travel in this direction this summer the club is carefully investigating the road for the purpose of posting signs and marking all detours. This department of the club, while conducted for the special benefit of members, is of invaluable service to all motorists, easterners as well as local residents. The club has representatives in eight principal sections of this end of the State.

Say not so. INDOOR BASEBALL IS FAVORITE GAME. WHITTIER FANS ENTHUSIASTIC OVER INNOVATION.

Two Courts are Going in Full Tilt and Schedules Have been Arranged for Several Weeks in Advance—Bummen Men Show the Most Interest.

(SPECIAL CORRESPONDENCE.) WHITTIER, June 28.—This town that has successfully passed through violent epidemics of football, basketball and baseball during the past year is threatened now with a similarly violent attack of indoor baseball. Under the direction of the Community Y.M.C.A. an outdoor indoor court has been established in the close-in district and for a week double headers of indoor baseball have been played outdoors by electric light. The fans have supported these exhibitions with fervor, and so great has become the interest that a second court has been equipped at

the High School athletic field, opening last evening, with a schedule that will fill nearly all summer. The opening spasm was played by Gwin's All-Stars and the Southern California Edison team, the former winning easily, with a score that was lost sight of.

This latest athletic epidemic to strike Whittier seems to hit all alike. The staid business man is seen in the bleachers of the club, the freckled-faced grammar school kid. It is no respecter of persons, and hence, perhaps, its popularity, easterners as well as local residents. The club has representatives in eight principal sections of this end of the State.

## ROY MOORE WINS BUT GETS A DRAW.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) COLORADO SPRINGS (Colo.) June 28.—Roy Moore, bantam champion of the Pacific Coast, was given a draw with Chick Hayes of Indianapolis at the end of a fifteen-round battle here tonight before the Colorado Springs Athletic Club.

The Coast lad easily won, having taken ten rounds by a good margin. Three rounds were even. Hayes put the soap in the referee's eye when he won the fourteenth by a shade and took the final session by a big margin. The decision was unpopular.

Moore carried the scrap all the way and showed a world of speed. In the eighteenth he had Hayes at his mercy.

Moore worked at Hayes' left ear and heart in the clinches and the Indianapolis lad was unable to block the whirlwind of mits playing all over his left side from head to belt.

Hayes was a favorite with the crowd, but everyone admitted that the battle was won by Moore.

## AUTOMOBILIST TAKES LONG, HARD TRIP.

(SPECIAL CORRESPONDENCE.) BRYN MAWR, June 28.—G. O. Bartlett has just returned from an automobile trip that took him through a number of States and over 4000 miles of western roads.

He was accompanied on the trip by his brother, G. M. Bartlett, his father, M. D. Bartlett of Ann Arbor, Mich., and Frank Hill of Santa Fe, N. M.

The machine in which they traveled had been constructed for long-distance work. The seats had been so arranged as to fold and make beds, camping supplies were stored away in every conceivable corner and a tent that attached to the top of the car was carried.

When the party tired of traveling or came to a good fishing place they stopped and rested for a few days.

They went from here to the Yosemite, San Francisco and then north to Oregon. The best roads in Oregon and the most scenic were traveled and Mr. Bartlett says that they are building some splendid roads in the northern States. After a trip through Washington the party turned into Idaho and from there went to Wyoming. The roads there are not so good, but were found to be easily passable if time was taken.

From Wyoming the party dipped into Colorado and then went south to Santa Fe, N. M., where they were disbanded. Mr. Bartlett returned to this city and his brother and father went East.

Most of the time, but some heavy storms were encountered. Mr. Bartlett said that California was the best of the West that can compare with the paved highways of this State.

In Wyoming the automobilists ran into a hard race and the sand in the air cut their faces until the flesh was raw.

## LAKE TAHOE In the High Sierras

Most beautiful mountain lake in most picturesque region in America. The center jewel in a brilliant diadem of Alpine lakes.

Attractive hotels and cabins. Cottages, tents and camping facilities.

Trout fishing in lake and stream, motor boating, mountain climbing or riding. The region abounds in natural trails.

The days are warm and balmy and the nights are cool.

The rates—each round trip, each Friday and Saturday. Limit 15 days.

\$31.75 every day, limit 15 days, stopover a night.

\$36.75 every day, limit 15 days, stopover a night.

These tickets include trip around the lake—72 miles along the scenic shore lines.

## TIA JUANA RESULTS.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) SAN DIEGO, June 28.—First race, five furlongs, selling: Ancestors, 114 (Molesworth), first; Doctor Neuffer, 111 (Fraser), second; Joe Bushner, 111 (Fraser), third. Time, 1:02 1-2.

Second race, six furlongs, selling: Ratchler, 107 (Stevens), first; Bertha Smith, 107 (Fraser), second; Baby Lynch, 109 (Molesworth), third. Time, 1:12 2-5.

Third race, five and a half furlongs, selling: Violet, 108 (Molesworth), first; Mena, 106 (Groth), second; Olive D, 106 (Fraser), third. Time, 1:08.

Fourth race, five and a half furlongs, Freehold Handicap: Angelito, 115 (Groth), first; Harry B, 129 (Molesworth), second; Adalid, 115 (McIntyre), third. Time, 1:05 1-4.

Fifth race, one mile, selling: Diadi, 109 (Alt), first; Ambr, 111 (E. Smith), second; Baby Johnson, 104 (Stevens), third. Time, 1:39 2-5.

Sixth race, one and one-sixteenth mile, Trans-Pacific, 112 (O'Brien), first; Caro Nome, 111 (Groth), second; Blooming Poney, 107 (Pool), third. Time, 1:58.

The elder track at Newark where the annual amateur athletic union track and field games will be held next September cost \$4000 to construct.

## WHAT'S WRONG WITH BASEBALL?

Natural Attendance Figures are on the Decline. Many Fans Take Baseball with Their Coffee.

BY HARRY A. WILLIAMS. Baseball, as a drawing card, is in the decline. It still has a tremendous following, and always will, but the turnstiles generally never will register the same high figures as formerly.

THUS ENOUGH. There is no distinction of the game, but many of those who were regular patrons are now "newspaper fans" and take their baseball along with their coffee at the breakfast table.

Baseball always will be a major sport, but the attendance of half a decade ago will not be duplicated.

Some attribute the comparatively small attendance throughout the country to the late Federal League, which unquestionably worked a great amount of harm to the game. Personally we are inclined to attribute it to golf, the movies, the automobile and the growing tendency of the average lady and gentleman to get excited about anything, especially the automobile.

Baseball's "stiff" is on the decline. Players are not idolized as formerly, and managers have lost their "big" away, speaking in the large, for clubowners, or even commercial glory. When anything is accomplished, it is under their feet.

WELL-KNOWN. Of all the men who have owned the major leagues, Charles Dwyer alone is well-known. A wonderful player, a clear-headed, business manager, and a genuine sportsman, seeking no undue advantage and granting none, he was the country's leading promoter of baseball, and the greatest of prosperity in 1914.

Continued with unprecedented interest, until the flood was reached between 1914 and 1915. There was a slight, although hardly discernible, lessening in interest from 1915 on until 1916. It came so marked as to attract attention. Many attributed this to the Federal League, and their doubts were a factor, but hardly accounted for the waning attendance in the major leagues, far removed from the center of the storm.

In fact, there has been nothing abrupt about the reduced attendance, recorded by the statistics. The reduction was gradual—at first imperceptible, and then palpably noticeable.

Seeking a sane solution, one needs only to turn to golf, the movies and the automobile.

GOLF GERM. The insidious golf germ has infected itself into the system of many of our well-known sportsmen who formerly were numbered among the first-class regulars. Every city of the circuit there are several hundred of these formerly conspicuous players who have turned their backs on the diamond.

Some now get out each afternoon and chase themselves around the links, instead of holding forth in soft seats and waiting for some one to swing the pill they get out themselves, and earnestly strive to connect with a marble set on an

THE AUTOMOBILE. Then many a young man who once took his best gal to the ball games, and who used to save car fare by going to the movies and watching the "Horrors of Horrors," or something equally horrible to be obtained for from 5 to 10 cents.

However, the decline in baseball attendance may be chiefly attributed to the festive and ubiquitous automobile. The automobile has not only affected some cities more than others. The automobile has not only affected some cities more than others. The automobile has not only affected some cities more than others.

these demons are in perfect shape and they are both hoping to be the victors.

Vince Haylock and Messenger are expected to knock holes in the record. Kewpie Stern will attempt to break the 721 ft. mark of Pacific Coast plungers.

The 440-yard relay time stands the best chance to go by the board. Howard Sylvester, Witt and Leander comprise the combination which is expected to knock holes in the previous attempts. Tuttle, Adams, Kilburn and Jimmy Leach will swim against the first-string men.

Added to all this Billy Williams, national diving champion, will give an exhibition from the high platform.

The championship events will start at 2:15 in the L.A.C. tank. By 9 o'clock there may be a new woman diving champion. Anyhow, there will be a champion.

The Alameda Horse Show Association has purchased twenty acres of ground from the Charleston Country Club, one mile north of the University of Virginia, at a cost of \$20,000, and is building a half-mile oval racing track, a concrete grandstand, a horse show ring and will be completed in time for the sixteenth annual exhibition of the show to be held August 1 and 2.

## THEY'LL MARRY BY WHOLESALE.

Six of Family of Eight to Wed at One Time—Father Comes from Alaska.

Isaac Levy, pioneer merchant of Dawson, Alaska, is due to arrive in Los Angeles this week, on his way to New York, where he will witness the marriage of his four daughters and two sons. The marriages will take place immediately after Mr. Levy's arrival in New York.

Mr. and Mrs. Levy are the parents of eight children. Mr. Levy has been residing with them in New York. Mr. Levy comes from Alaska by way of Los Angeles in order to visit his brother, Ben Levy, former Dawson "sourdough" and capitalist.

Ben Levy went to Alaska in 1895, was on Forty-mile Creek when the Klondike strike was made, and he staked out one of the rich El Dorado claims. Isaac Levy has owned a store at Grand Forks and one at Dawson for sixteen years. He will return to Alaska next fall.

Mr. Levy says he will not attempt to interfere with their activities. He thinks there has been enough talk already. But so much has been said about the marriages that he is not going to say anything more in the details of the marriages.

A smart trout dinner was given at the home of the Kelsey family during a merry dinner, Tuesday night, followed by the searching of the men guests by a committee of women.

## TEXAS LAND FRAUDS.

(Continued from First Page.)

Extra Supply, Carried for Safety, Falls Over Driver, Pinions Arms, and Uncontrolled Machine Hits, Polo-Man Sustains Serious Injuries.

Paul Bourseman was lassoed by an automobile tire yesterday while driving a delivery wagon, and his arms were pinned so tightly to his side he lost control of the steering wheel, the machine crashed into a telephone pole, and he was seriously injured.

Mr. Bourseman lives at No. 1889 West Forty-second street. His delivery wagon is a covered affair, and he keeps an extra tire suspended from the ceiling of the rig, directly over the driver's seat. When the machine went over a crossing at Western and Melrose avenues yesterday, the tire became loosened, and Mr. Bourseman's neck, over his shoulders and down around his chest, was caught in it.

The blow of the tire also shocked him, and he abandoned the steering wheel. The machine darted for a post, and wrecked itself. Bourseman was thrown out, receiving severe cuts on his head and arms, and an injury to his spine. He was taken to the Receiving Hospital for treatment.

## A Boon to Foot-Sufferers—The Stetson "Corndodger" Shoe

We have recently been made Los Angeles' exclusive representatives for the famous Stetson Shoes. The "Corndodger" is an especially popular model.

Comes in both high and low cuts.

336 SOUTH BROADWAY

Healthgrams' On Skin—Flashed to Thousands

One of Nature's signals is an unhealthy skin. It is a scientific fact that the skin indicates the condition of the blood and the blood is the building material for the body and all its vital parts. Unless the blood is nourished and kept rich and healthy, it will eventually react on the organs it feeds and reduce the individual to a pitiable condition. Little do people realize the physical ailments that drain away strength and vitality and that can be traced straight to the poor supply of blood. Vitamins, Eczema, Salt Rheum, Rheumatism, Carbuncles, Boils, Catarrh with its obnoxious results and

Business: Money, Stocks and Bonds Trade Local Produce Market—Citrus Markets

LOWER LEVELS REACHED IN WALL STREET TRADE.

Much of the Previous Recovery is Sacrificed, Prices Yielding Through Sheer Inertia More than from Liquidation—Mexican Situation is a Feature, Bankers Believing War is Sure to Come.

[BY A. P. NIGHT WIRE.] NEW YORK, June 28.—Much of the ground recovered from yesterday's weak market was surrendered today, and in some instances more besides. Trading was apathetic, except for the first hour, when some semblance of activity and firmness was maintained. For the balance of the session the list sagged slowly to lower levels, prices yielding through sheer inertia more than from liquidation. The Mexican situation was again the overshadowing feature. Private advices received by banking interests suggesting an early declaration of hostilities, Mexican Petroleum was the only issue of its special class to be seriously affected, making a decline of 4 1/2 to 5 1/2 cents, the past fortnight. Motor stocks, the prominent industrial and equipment, as well as munitions, with few exceptions, were 1 to 3 points lower on comparatively light offerings, but when not subject to pressure. Railroads afforded the basis of early stability, such issues as Reading and Union Pacific showing some strength. Total sales amounted to 345,000 shares. A further break in marks to 7 1/2, a decline of 3 1/2 cents from the middle of the month, was the significant feature of the exchange market. Bonds were irregular on nominal offerings. Total sales, par value, aggregated \$2,280,000. Mexican bonds were unchanged on call, but sales of coupon 5s and registered 4s were made at declines of 1/2 and 3/4 per cent, respectively.

At the Courthouse.  
**RULES FOR CITY IN BROADWAY CASE.**  
ASSESSMENTS FOR OPENING POINT IN DISPUTE.

Injunction Sought by Rindge Company and Others to Prevent Collection of Assessments for Opening Point in Dispute.

Judge Works ruled yesterday on the questions raised in the consolidated injunction suits of the Rindge Company, A. M. Murphy, Patrick Williamson, E. M. Nutting, to restrain the collection of assessments on the opening and widening of Broadway from Tenth to Eleventh streets and Pico to Twelfth streets.

The court held that the testimony of experts was not admissible; that neither a collateral nor direct attack can be made on the action of the City Council in the present injunction action, and that the Hamburg case did not apply directly.

The questions ruled on were those following the deposition of Col. W. G. Schreiber, chief of the department of opening and widening streets. In the deposition Schreiber explained his method of making assessments. The objections were to be ruled on later.

When it was attempted to introduce testimony an argument arose with the view of throwing out questions having an important bearing on the case, with particular reference to the admissibility of testimony.

One question raised was whether or not the City Council exercised discretion in the distribution of assessments. The plaintiffs claimed they had a right to go outside of the record and produce experts. Another question was whether or not the property was benefited and to what extent.

The record of the City Council will now be depended on in introducing testimony.

**BEST POLICY.**  
A suit before Judge Wilbur yesterday determined the interesting fact that if you say you are paying more than you actually are you may be required to produce the difference.

The suit was brought by Theodore Hale against Mrs. Minnie E. Twombly. The latter had a ten-year lease on a hotel on East Sixth street. The monthly rental was \$225. Mr. Hale was a prospective purchaser of the hotel and Mrs. Twombly told him she was paying \$200 a month.

Mr. Hale bought and Mrs. Twombly brought suit on the ground that the tenant was estopped from the enforcement of the terms of the lease by her statement, inasmuch as he acted on her representation in purchasing the building for \$100,000, favoring, holding that Mrs. Twombly must either pay \$200 a month rent or vacate the premises.

**MANY MOTHERS FAIL TO PROVIDE.**  
Failure to provide for his wife and nine children, according to allegations in the complaint on which he was arrested, brought Fearl Foxworth, a well-to-do Whittier rancher, before Judge Craig yesterday for arraignment.

Mrs. Maud Foxworth, asked that her husband be forced to pay at least \$50 a month toward the support of his big family.

She also suggested that he should be willing to allow her husband to have the custody of some of the children. If the court, after hearing the case, decided this would be proper and right, the court ordered a hearing of the case for this morning.

**IN AND OUT ABOUT THE COURTS.**  
**DAMAGE SUIT.** One of the automobiles of the L. E. Moore Fire Company struck Earl Allman, 14 years old, at Beaudry and Colton streets on the night of August 3, 1915, and according to his suit for \$50,000, filed yesterday, he received fractures of the jawbone and three ribs, facial disfigurements and nervous shock. At the time of the accident the machine was driven by J. J. Fowler, and it is alleged to have been running without lights and that no warning of its approach was given.

**LIGHT AND AIR.** Helen A. Pearson went to law against George Hadlow yesterday in an effort to prevent the erection of a building on the lot adjoining her property and thereby cutting off the free passage of light and air. She asks the court to issue an injunction restraining the defendant, and for \$500 damages. It is alleged that the defendant had been running without lights and that no warning of its approach was given.

**DETECTIVE'S ESTATE.** Detective Charles H. Clark, who was killed in the 17th street, left an estate of \$1400, according to a petition for letters of administration filed yesterday by his widow, Mabel Crow. Included in his estate is an equity in an automobile, a lot worth \$1000 at San Bernardino, and cash.

**SEPARATE MAINTENANCE.** Mrs. Helen Mae Mace alleges that her husband, Warren Kenneth Mace, by his "strategy, conduct and actions," so conducted himself that he deserted her last Wednesday, leaving her with two children, the eldest 4 years, to support. Failure to provide maintenance suit filed yesterday. The couple were married in this city June 11, 1909.

**ANOTHER GETS OUT.**  
One Less Lottery Case on Calendar as Result of Court's Order.

J. P. Buckley, who was indicted with a number of others for the charge of selling the mails to transmute lottery tickets, and who has been at liberty on a bond of \$3000, was ordered released yesterday on his own recognizance by United States District Judge Tippet, on the recommendation of Deputy District Attorney Moody.

The only lottery case now pending is against Eugene La Rouché and "Joe" Sullivan. La Rouché was president of the Hermodillo Lottery Company at San Francisco. It is alleged that the government so far has failed to make the charges stick, except in the case of W. H. H. Young, who pleaded guilty to selling lottery tickets. Buckley was a witness before the Federal grand jury.

At the City Hall.  
**CO-OPERATION ON GRADE-CROSSINGS.**  
ALL PARTIES INTERESTED TO BE HEARD HERE.

Notification of Joint Conference of State Railroad Commission and Council on Death-trail Elimination Telegraphed to Heads of All Railroads Affected by Matter.

Notices of the informal joint conference between the State Railroad Commission and the City Council to discuss the grade-crossing situation on July 3 were ordered sent by the Council yesterday to the representative heads of all railroads affected in Los Angeles. In the form of telegrams, these notices were sent to President Albert T. Lovett of the Southern Pacific New York, and to President E. F. Ripley of the Santa Fe at Chicago. The officials in Los Angeles, who were notified by letter, include Paul Shoup, president of the Pacific Electric; W. A. Clark, president of the Santa Anita, and the division general managers of the Southern Pacific, Salt Lake and the Santa Fe.

## FIGURED DOWN TO FOUR BITS.

Temporary Allowance for the County is Fixed.

Economy's Watchword of the Coming Budget.

School "Frills" Criticized by the Supervisors.

A temporary allowance of \$1,015,652.80 for expenses of operating Los Angeles county affairs over July and August, while the annual budget is being arranged, was made by the Board of Supervisors yesterday morning.

This estimate of expenses over that period was made by the board and by County Auditor Lewis after several weeks of careful survey of conditions and close tabulation of sums needed by each department. Orders were issued to each department calling attention to the great need for economy, and in very few of these was any allowance made for increase in appropriations, the majority all coming in for a decrease.

The temporary two-month budget calls for the expenditure of \$284,030.00 in salaries for county employees. General expenses call for the expenditure of \$496,072.00. The road department is to have \$35,000 for general work and \$75,000 to be expended on the normal expenses of the First, Fourth and Fifth supervisorial districts.

The balance of \$30,000 is to be paid to the San Diego exposition for the maintenance of the Los Angeles exhibits and the normal expenses of the exposition. The county free library is scheduled to obtain \$4400. The foregoing items are all included under general expenses.

An appropriation of \$99,250 for the purchase of new equipment and improvement of the county jail is included in the total, and the balance of \$1,015,652.80 is to be used for the purchase of new equipment and improvement of the county jail.

The balance of \$1,015,652.80 is to be used for the purchase of new equipment and improvement of the county jail.

## WHEN EVERYONE IS PROSPEROUS.

Income and Special Taxes for Month to Net Millions for Uncle Sam.

The office of Collector of Internal Revenue Carter was crowded yesterday with taxpayers liable for the income and special taxes to the government, and Sherman Jones, chief clerk, estimated that the receipts of the office for the month ending tomorrow night, will be in excess of \$1,000,000. Tomorrow afternoon at 4:30 o'clock the time limit expires within which payments on account of taxes can be made without the enforcement of a penalty.

Scotched.  
**FIRE UNDER CONTROL.**

Flames Burn Over Large Tract of Small Timber in Angeles National Forest—Helicopter Flashes False Alarm from Santa Anita Canyon.

Reports to the office of Supervisor Charlton of the Angeles National Forest yesterday indicate that the forest fire which has been raging near Newcomb's cabin, below Chilo, has burned over 100 acres of small timber, but that it has been contained.

There was an alarm of fire in Little Santa Anita Canyon yesterday, but after the forest rangers had made the run to the place they found it nothing more than a cloud of dust. The alarm had been telephoned to the station near Mt. Baldy, and helicopter from there to the office.

**NEW LIBRARY READY.**

First Books Will be Issued to Boyle Heights People Saturday.

Plans are completed for an informal opening of the new Carnegie building at East First and Chicago streets, to house the old Boyle Heights branch library, which has been in existence since 1880. Many new books have been ordered, including books in several foreign languages, and more will be added from time to time.

This afternoon Miss Britton, children's librarian, and her assistant, Miss Crow, will tell stories to the children. Tomorrow afternoon all members of the parent-teacher association and teachers in the neighborhood schools are invited to visit the new building and see the new books before they are issued.

On Saturday books will be issued for the first time from the new building, which will be open daily from 9 a. m. to 5 p. m. on Saturdays and 2 p. m. to 5 p. m. on Sundays.

Special invitation is given to all foreign readers to visit the library Saturday evening.

**FIGHT FOR LAND CLAIM.**

Four Newhall Men Arrested on a Charge of Assault.

A land dispute near Newhall yesterday resulted in a fight. This in turn brought a complaint for the arrest of J. W. Fernalde, D. M. Fernalde, Walter Fernalde and "John Doe" Rutherford. The warrant was issued by Deputy District Attorney Clara Woolsey on the charge of assault.

The men were arrested by Sheriff George T. McCoy, the plaintiff. Arrests were made by the Newhall constable and the road work was made without crippling city service.

The trimming made by the committee yesterday gets the tentative budget to within hailing distance of last year's figures, but no account has been taken yet of the proposal to spend about \$250,000 for a new outfall sewer and wharf at Hyperion to comply with the demands of the State Board of Health.

**TOUCH OF REALISM.**

Movie Firemen Perform Real Service When Studio Blazes.

While staging a thrilling "rescue by night" in the Vitaphone studios, at No. 1708 Talmage street, Tuesday afternoon, a smokepot exploded, the flames spreading quickly to the setting of the scene and creating a place that, in time threatened to destroy the entire studio and its contents.

The theatrical firemen, employed in the scene, immediately developed into regular firefighters, and were performing nobly when the real smoke-eaters appeared. The studio was confined to the one setting. The management estimated the total loss at \$1000.

**WIFE CHARGES TREASON.**

Raymond Ratajick, a musician, with the usual temperamental adjustments of this profession, was arrested yesterday morning by Deputy Sheriff Modie and Cooper on a charge of having threatened to kill his pretty wife, and other words were uttered at the family home, No. 1485 Wallace avenue. The defendant denied that there was anything to the charges.

**ROAD DEPARTMENT MAY SWALLOW UP FORESTER.**

ONE of the first county departments to be eliminated in an effort to reduce taxes will be the forestry department. Such a step was not definitely determined yesterday when the matter was brought up by Supervisor Hinshaw before the Board of Supervisors, but the majority of the board favored elimination of the department, which at present has about thirty persons on its pay roll.

Supervisor Hinshaw after calling attention to the fact that the forestry department was never intended to branch out extensively, declared that practically all of the work now being done by a small office force under the forester and an outside force of ten or twelve men could be done by the road department.

"The State of Massachusetts has a system which calls for supervision of all forestry work by the road department and it has worked out well," said Supervisor Hinshaw. "I believe that 60 per cent. of the money now expended by the Forestry Department can be saved by a consolidation."

In order to comply with the State law which places control of roads along the highways in the hands of county foresters and a forestry commission, the board will continue operation as well as the commission, the latter being maintained at nominal expense.

In order to bring the matter to a head, Supervisor Pridham introduced a resolution to the effect that the consolidation should be made and action will be taken on Monday probably.

Supervisor Hinshaw also declared that he would be prepared to further appropriation of anywhere from \$25,000 to \$50,000 for reforestation purposes in the mountains, particularly where such work is done on private property or on State property which is unprofitable save through private toll roads. This work of reforestation, he suggested

## SWAP PRUNING KNIFE FOR AX.

Budget Committee Goes After Fire and Police.

Fifty Thousand Dollars Cut in Day's Work.

Library Tax is Slashed by Half that Sum.

The Council Budget Committee discarded its little pruning knife yesterday and took up a broad-ax when it went after various city departments a second time and lopped off more than \$50,000 as a day's work.

The fire and police department appropriations suffered most, although \$25,000 was trimmed from the estimated four mills library tax. In considering the tentative appropriation of \$25,000, which is the amount of the library tax, the committee decided to trim the amount to \$12,500, which is the amount of the library tax.

Reports from various city departments as to the amount necessary to carry on municipal work in the recently annexed territory, including Baldwin, San Fernando and The Palms, were presented to the committee. These asked for a total of \$168,471, but this was trimmed to \$150,000 tentatively. The amounts asked by various departments for work in the new territory are: Assessor, \$2500; custodian, \$25,000; elections, \$2137; electrical, \$2550; engineering, \$51,428; fire, \$31,138; health, \$1068; park, \$1148; police, \$2284 and tax collection, \$2500.

In the fire department budget the request of \$10,250 for a fire engine for Van Nuys was eliminated and the committee will recommend to a part of the present city equipment be sent there until the new municipal building is ready. The committee is also considering the advisability of closing one or more additional fire houses for the year.

A new salary ordinance for the police department will also be recommended by the committee. It will eliminate one lieutenant at \$1800 a year, one sergeant at \$1500 and ten patrolmen at \$1200 each, and will reduce the salary list by \$1850 a year.

The Budget Committee notified the Chamber of Commerce yesterday that at any time after 2 p. m. on July 3 the committee will be glad to meet with the committee of three to be appointed by the Chamber of Commerce to study the road work.

This committee, according to Chairman Wheeler, will be asked to suggest further cuts that it believes can be made without crippling city service.

The trimming made by the committee yesterday gets the tentative budget to within hailing distance of last year's figures, but no account has been taken yet of the proposal to spend about \$250,000 for a new outfall sewer and wharf at Hyperion to comply with the demands of the State Board of Health.

**GENUINE PLEASURE!**

Just think of what it means to have a real vacation. You can see yourself as others see you, and finish everything without any fuss or bother. You can make up your mind to see the world as it is, and not as you wish it to be. You can make up your mind to see the world as it is, and not as you wish it to be.

You can make up your mind to see the world as it is, and not as you wish it to be. You can make up your mind to see the world as it is, and not as you wish it to be. You can make up your mind to see the world as it is, and not as you wish it to be.

You can make up your mind to see the world as it is, and not as you wish it to be. You can make up your mind to see the world as it is, and not as you wish it to be. You can make up your mind to see the world as it is, and not as you wish it to be.
